Risk perceptions along the EV value chain

Dr Paul Nieuwenhuis
The EV value chain...

- Is different from the IC value chain.
- Therefore a transition is needed from the ICVC to the EVVC.
- This causes risk and uncertainty.
- ...affecting all players in the value chain.

Paul Nieuwenhuis 2011
Risks are perceived differently at all stages along this value chain
e.g. Risk reduction strategies - manufacturing

- Share risk
- Outsource risk
- Parallel development
Risk reduction: incentives and disincentives

Paul Nieuwenhuis 2011
Reducing risk: incentives
Different perceptions of risk: early adopters
The barriers to EVs are not, on the whole, technological...

...they are social, economic, psychological...
THE END

Thank you for your attention

Paul Nieuwenhuis 2011
